### **Source Water Spill Reported in Bowman County**

BISMARCK, N.D. – The North Dakota Department of Health (NDDoH) has been notified of a 2000 barrel spill of water used for enhanced oil recovery from a pipeline from the Paynter Source Well owned by Denbury Onshore, LLC in Bowman County, 6 miles south of Marmath. The incident occurred on September 1.

This water is higher in dissolved solids and minerals than fresh water. The spill occurred as a result of a leak in the pipeline. The NDDoH is responding and will work with the companies on remediation plans.

For more information, contact Karl Rockeman of the North Dakota Department of Health, 701.328.5225.
